

Simplify Authentication and Access with Versatile WAVE ID® Nano Readers

From Xerox® Customized Applications Service

Xerox® VersaLink® B415 Multifunction Printer

Xerox® VersaLink® B625 Multifunction Printer with Security Kit

Simple, small, and powerful readers that make mobility easy for employees requiring authentication.

SECURE ACCESS

WAVE ID Nano Readers allow users to easily access Xerox® Printers with a simple wave of an authorized badge. Simply plug in the Nano Reader and configure your printer. No longer will users need cumbersome passwords. Multiple access cards can be configured to authenticate a printer (for environments where a device is shared by several individuals). The compact size of each reader complements the efficiency of printers where print management software ensures print jobs are not released until an employee waves their badge at the reader.

FEATURES:

- Simple Installation
- Easy Accessibility
- Network Security
- Support for a wide variety of applications

BENEFITS:

- Enhances Security
- Protects Documents
- Accurate Authentication
- Improved Productivity
- HIPAA Compliant

AVAILABLE ON:

- VersaLink B415
- VersaLink B620
- VersaLink B625
- VersaLink C415
- VersaLink C620
- VersaLink C625

OPTIONAL SECURITY KIT

The Optional Security kit provides a deterrent to prevent users from mistakenly walking away with the Nano Reader. The kit components can be installed by a Xerox Service Representative to ensure maximum security. Alternatively, the kit can be pre-installed by the Xerox Device Customization Center (DCC) at no additional cost.

Maximize productivity with Nano Readers for your Xerox Multi-function Printers.
